## COVID-19 Policies and Procedures

### I PURPOSE

- The purpose of this policy is to provide for disciplinary policies in regards to the enforcement of State of Nevada COVID-19 directives. Swim team coaches and swimmers must abide by the COVID-19 regulations and directives in order to maintain the health and safety of one another, community patrons and City of Reno staff. Repeated violations of the directives may result in the closure of the facility.

### II PERSONS AFFECTED

- Swim teams using City of Reno aquatic facilities.

### III POLICY

- As per Governor directives, swimmers must wear a face covering at all times when not actively swimming.
- Swimmers can leave their face covering at their bag or at a designated site on the pool deck prior to getting into the pool.
- Masks cannot be left in the locker room.
- Upon exiting the water, swimmers must immediately walk directly to and put their face covering on immediately.
- Coaches will be notified if it is determined by a City of Reno staff that a swimmer or swimmers have been out of the pool and failed in putting their face covering on within a reasonable amount of time.
- It is the swim team coaches responsibility to direct swimmers to put their face coverings on immediately upon exiting the water.
- Social distancing of swimmers by 6 feet is to be maintained by keeping a safe space between yourself and other individuals not belonging to the same household.

### IV DISCIPLINE

- If a swim team coach is notified three or more times on a single day in violation of face covering policies, the team will be suspended from swimming the following scheduled day. The team will be notified that day about the suspension for the following day.
- If a team is suspended from swimming twice in a 7-day period, the team will have swimming privileges suspended for the following 7-day period.
